24<sup>th</sup> Electronics Packaging Technology Conference  
7<sup>th</sup> – 9<sup>th</sup> Dec 2022, Singapore

IEEE EPS Flagship Conference  
in Asia Pacific Region

## ABOUT EPTC

The 24<sup>th</sup> IEEE Electronics Packaging Technology Conference (EPTC2022) is an international event organized by the IEEE RS/EPS/EDS Singapore Chapter and co-sponsored by the IEEE Electronics Packaging Society (EPS). EPTC2022 conference will feature keynotes, technical sessions, technology talks, virtual exhibition corners and networking activities. It aims to provide a platform to cover the technology developments in the complete spectrum of electronics packaging from design to manufacturing. Since its inauguration in 1997, EPTC has established a highly reputed electronics packaging conference in Asia and has been selected as an EPS flagship conference in the Asia-Pacific Region 10, covering diverse areas of electronic packaging technology topics. These include modules, components, materials, equipment technology, assembly, reliability, interconnect design, device and systems packaging, heterogeneous integration, wafer-level packaging, flexible electronics, LED, IoT, 5G, emerging technologies, 2.5D/3D integration technology, smart manufacturing, automation, and AI.

The EPTC Technical Program Committee, with more than 100 experts from diverse technology areas in semiconductor packaging, is committed to creating an engaging technical program for the packaging community. Last year, the 23<sup>rd</sup> EPTC was conducted on a virtual platform due to the pandemic. More than 496 attendees from more than 30 countries worldwide attended 150 video presentations across the 26 technical sessions.

EPTC2022 Organizing Committee would like to invite you to support the sponsorship of this event. A dedicated two-hour sponsors and exhibition session in the Ballroom on Day 2 and Day 3 has been planned, and winners will be picked up through Kahoot game participation for the question submitted by respective sponsors and exhibitors. There is no exhibitor's presentation during the tea break session to enhance exhibitors' and delegates' interaction.

EPTC2022 is planned for an in-person event based on the prevailing pandemic situation. Depending on situational change closer to the conference date, EPTC2022 may consider a hybrid conference mode if necessary.
